Extended Project	7993	B	42 / 50	Autumn 2025
Overall		AAA*		Rank 4 of 118

Form tutor's remarks

Tobiah has been an exceptional student of the sciences and a patient collaborator in the workshop. The extended project, on passive cooling in school buildings, was presented to the governors in March and is held in the library. He leaves with our warm regards and a place confirmed to read engineering.
